## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 7, 27, 28 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Grebe et al., U. S. 2,152,306

Regarding claims 1-5, 7, 27, 28 and 30, Grebe et al. discloses inserting a iron tool (p. 1, left col., lines 1-7) in a wellbore for performing a function and introducing hydrochloric acid to the tool to dissolve it (p. 1, left col., lines 40-47).

Claims 1-9, and 27-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Miller et al., U.S. 3,099,318

Regarding claims 1-7, and 27-30, Miller et al. disclose discloses inserting a magnesium tool (42,40; col. 7, lines 10-16) in a wellbore (44) for performing a function and introducing hydrochloric acid to the tool to dissolve it (col. 7, lines 25-33).

As to claims 8, 9 and 31, Miller et al. discloses the tool (42,40) establishes a seal (40).

### ***Allowable Subject Matter***

Claims 15-26 are allowed.

Claims 10-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or suggest all the claimed subject matter including perforating the casing.

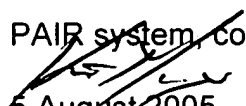

The prior art of record does not disclose or suggest all the claimed subject matter including introducing fracturing fluid to promote the flow of production fluids from the formation.
